## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election with traverse of Group II in Paper No. 6 is acknowledged. The traversal is on the ground(s) that search and examination of all of the inventions would not pose a serious burden. This is not found persuasive because search and examination of *five* separate and distinct inventions, said status having been conceded by applicant, is burdensome on its face.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 17-19 remain rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention for the reasons of record in the previous office action.

### ***Claim Rejections - 35 USC § 103***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 17-19 remain rejected under 35 U.S.C. 103(a) as being unpatentable over WO 98/04772 for the reasons of record in the previous office action.

***Response to Arguments***

6. Applicant's arguments have been carefully considered, but they are not found persuasive. Regarding the indefiniteness of "substantially free of", applicant points to the definition of "essentially free of". In the absence of any guidance from the specification, the examiner cannot assume that these phrases are synonymous. Indeed, it would be prudent to assume otherwise where both phrases are used. Perhaps the claim language should be amended to recite that for which there is basis in the specification.

7. Regarding the 103 rejection, the prior art teaches the utility of glycols as a genus, and the applicant discloses the utility of a number of species of glycols. Such a genus-species relationship constitutes obviousness.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
